

V600

- Hydraulic crimping head for Cu-terminals 10 - 240 mm² and C-sleeves up to 50/50 mm²

V600

- is a part of Elpress 6 ton system
- has the same crimping dies as V611 and PVX611
- is used with Elpress pump PS710 or P4000

Use:

For crimping of Cu-terminals of type KRF/KSF 10 – 150 mm², KRD/KSD 10 - 185 mm² and KRT/KST 10 - 240 mm² and C-sleeves up to 50/50 mm².

Particulars:

- weight 2,1 kg
- dimensions 189 x 53 x 74 mm
- crimping force 55 kN
- robust textile bag with room for 10 die pairs
