

REACH

Regulation (EC) No 1907/2006 of the European Parliament and of the Council, of 18 December 2006, in force since 1 July 2007.

The purpose of REACH is to generate knowledge of chemicals and to increase the responsibility within industry regarding risk management, with the additional aim to improve protection of human health and the environment.

Elpress comply with the REACH regulations and are, according to REACH, a downstream user and producer/importer of articles:

- Elpress does *NOT* manufacture or import chemical substances, All Elpress chemical substances are used as delivered and un-modified, in all production processes. Their chosen designed usage is identified prior to acquisition and Elpress use all chemical substances as they are supposed, according to supplier instruction and guidance without exception.
- Elpress both manufacture and import material and products. Any substances contained within these articles are *NOT* released under normal or foreseeable conditions of use.
- Elpress' obligation in the context of REACH is to inform and communicate information on chemicals when necessary, both upstream to customers and downstream to suppliers within in the Elpress distribution chain.

The systematic strategy and aim within the Elpress environmental framework are to ensure that all of our products comply with all relevant industry and regional environmental regulations to the best of our knowledge and as far as reasonably practicable, that no prohibited substances are present within Elpress products.

The information is provided in good faith and is based on data from our supply chain considered accurate at the time of preparing this note.

Elpress is certified to:

ISO 14001 cert. no EMS 531083

ISO 9001 cert. no FM 20987

Elpress AB
